INT.CL. : H04B 1/08 H04N 5/64 H05K 5/02

TITLE : RECEIVER

ABSTRACT : PURPOSE: To miniaturize a device as a whole, by providing an antenna housing part which houses a rod antenna integrally on a hinge part coupled with an enclosure in such a way that they can be opened and closed freely.

CONSTITUTION: The enclosure 1 and 2 are coupled with the hinge part 3 in such a way that they can be opened and closed freely. In the inside of the enclosure 1, a reception circuit and a back light source, etc., are incorporated, and a liquid crystal panel 5 is mounted on a plane which becomes an inner plane when it is closed. In the enclosure 2 on the other side, a power source battery, etc., is incorporated, and a speaker 6 is mounted on the plane which becomes the inner plane when it is closed. On the hinge part 3 in which the enclosure 1 and 2 are coupled in such a way that they can be opened and closed freely, the antenna housing part to house the rod antenna 12 is formed integrally, and a housed antenna 12 is fixed with a screw.
